

SM120

Utility Track Loader, Productivity Package

Do More with Less

The SM120 uses Wacker Neuson's ergonomic mini-loader controls, while maintaining operator comfort features such as padding and a spring suspension for a better ride and added stability. The productivity package puts major workgroup controls literally at the operator's finger tips, allowing for function shifting on the fly. The high hinge pin of the SM120 provides a 5'3" bucket dump height and allows for easy loading into high sided trucks and dumpsters. The wide (11") track width provides among the lowest ground pressures on the market, minimizing incidental damage to the work site.

Highlights

- All Day Comfort
- Extra Wide Tracks
- Switch Functions On the Fly
- Ride Control
