## KL33.8T

### Telescopic wheel loaders

#### HIGH FLYER IN OPTIONS

The powerful Kramer telescopic wheel loader KL33.8T includes a 55 kW Deutz engine as standard. Due to the narrow box structure of the telescopic loading system, optimal visibility is guaranteed. The telescopic loading system also enables a greater reach range, as well as stacking and dumping height. Furthermore, the one-piece vehicle frame also ensures a constant payload and stability.

**Telescopic loading system:** Increased productivity thanks to increased reach, stacking and dumping height as well as an optimum overview thanks to the narrow box design

**Working hydraulics:** The load-independent flow distribution (LUDV) ensures parallel execution of the various hydraulic functions

**Panoramic cabin:** The optional panoramic cabin provides maximum visibility upwards

**Four driving modes:** Power, Eco, Road and CSD - the right and fuel-saving driving setting for every application

**Smart Attach:** Hydraulic attachments can be changed quickly, simply, and safely as a result of the series' installed full-hydraulic quickhitch plate
