Portable Inverter Generator

Silent, Efficient, Power you can trust.

The Inverter generators are designed to provide stable and reliable power, making them ideal for sensitive electronics like laptops and smartphones. Compact and lightweight, they are easy to transport, providing flexibility in various settings. With inverter technology, these generators deliver consistent power quality while being fuel-efficient, extending operation time and reducing emissions. Additionally, they operate quietly, making them suitable for noise-sensitive environments.

Highlights

- Inverter Technology for Safe and Reliable Power
- Built-in Handles and Wheels
- Compact Enclosed Design
- Reliable Loncin engine
- Large tank with long running time
- Speed Reduction

Technical Data

Mechanical Details

Length	499.0 mm
Width	285.0 mm
Height	455.0 mm
Dry Weight	21.0 kg

Generator

Insulation class	• A
Output current 1~	7.0 A
Output frequency	50.0 Hz
Efficiency factor 1~	1.0 cos φ
Phase	1.0 ~
Generator specification	• Inverter
Voltage 1~	230.0 V
Maximum Output	1,800.0 W

Continuous Output	1,600.0 W
-------------------	-----------

Engine

Tank capacity	4.0 l
---------------	-------

Environment Data

Degree of protection	• IP23
Sound power LWA, guaranteed	88.0 dB(A)
Sound power LWA (Standard)	• 2000/14/EG

Electrical System

Breaker Switch On/Off	• 1 Pole
CE Performance Class	• G2
Receptacle Type	• CEE7/3 (Typ F) 2P 16A 250V, IP44 1~

Operating Fluids

Fuel consumption (Prime load)	0.6 L/hr
Run Time (Prime Load)	6.5 hrs
