

RD40-130o.3

Tandem roller

Powerful and versatile

The articulated RD40 is a powerful roller that offers balanced weight distribution on the front and rear drum which provides very even compaction results. It offers high degree of driving stability and is easy to maneuver. Additionally, the excellent view compacted area and the large drum diameter contribute to first-class results. The ROPS roll-over protective structure, which can be folded away to the rear for transport, makes for a safer working environment.

Highlights

- Rear axle with oscillation drum
- Ergonomic work platform
- Uniform operating concept
- Large line-of-sight, compact construction
