

RTD-SC4 with Compatec Trench Roller

New Look; Proven Compaction

The RT trench roller with the SC4 remote control provides proven compaction performance with greater serviceability, durability, and a best-in-class operator experience. With greater access to hydraulic components and fewer parts, the RT trench roller offers high reliability and a lower cost of ownership. The intuitive remote control with an LCD display puts the data and controls in the operator's hands, eliminating the need to enter trenches, which enhances worksite safety.

Highlights

- Infrared line-of-sight
- All-in-One Personal Remote Control
- Patent Pending Return to Center
- Tip Over Protection
- Service Accessibility

Technical Data

Mechanical - Output Details

Travel speed	1.3 - 2.7 km/h
Frequency Level I Hz	42.0 Hz

Mechanical Details

Operating weight	1,456.0 kg
------------------	------------

Engine

Nominal Engine speed	3,000.0 1/min
Engine Manufacturer	Kohler

Environment Data

Sound level LpA	109.0 dB(A)
-----------------	-------------

Electrical System

Remote Control Range	20.0 m
Remote Control Bat. Capacity	12.0 h
Recommended Battery Typ	Ni-MH 7,2V/2000mAh

Operating Fluids

Fuel Tank capacity	35.8 l
Fuel consumption	2.7 L/hr
