

G14 Mobile Generator

The bridge between the portable and mobile generator

The G14 is a single phase 13.5 kW mobile generator designed for job sites where fuel economy and long run times are necessary. The programmable controller allows for customization along with maintenance reminders and alarms for ease of use. Serviceability of the machine is made easy by the access through the removable doors and single side service. The compact footprint along with the folding tongue minimizes transportation which allows for maximizing storage space.

Highlights

- G14 Long Run Time
- Compact Cabinet and Easy to Transport
- Powerful Alternator

Technical Data

■ Mechanical Details

Operating Weight (with Trailer)	2,178.2 lb
---------------------------------	------------

■ Generator

Output current 1~	56.2 A
-------------------	--------

Generator Rating 1~ (Continuous)	13.0 kVA
----------------------------------	----------

Voltage 1~	120.0 V
------------	---------

■ Engine

Utilizable tank capacity	65.3 gal US
--------------------------	-------------

Operating power	22.8 hp
Operating Engine speed	1,800.0 1/min
Exhaust-gas limit	EPA Tier 4 final
Engine Manufacturer	Rehiko

■ Operating Fluids

Utilizable tank capacity	65.3 gal US
--------------------------	-------------

■ Shipping and Storage

Shipping weight with Trailer	1,719.6 lb
------------------------------	------------
