

PDI2A(I) Diaphragm Pump

Powerful pump for use in removing mud slurries and seepage areas

These pumps are ideal for moving water with mud, slurries and in seepage areas. Built with high quality component, you will be assured of many years of top performance and durability. Large solid rubber tires provide excellent traction and smooth rolling over rough terrain.

Highlights

- Straight through water flow design
- Ductile iron crankcase for maximum durability.
- Lightweight cast aluminum housing
- Oil bath lubricated transmission reduces maintenance costs
- Surge chamber on inlet side for smooth pumping

Technical Data

■ Mechanical - Output Details

Flow rate max.	189.0 l/min
Solid diameter max.	38.0 mm
Suction head max.	7.5 m
Delivery height max.	15.0 m

■ Mechanical Details

Length	996.0 mm
Width	455.0 mm
Height	585.0 mm
Operating weight	59.0 kg
Intake-/Pressure socket-dia.	50.0 mm
