

FUH20/1/042

Portable frequency converter

Light and compact - perfect for small construction sites

At only 8.9 kg weight, the frequency converter FUH20 is a real lightweight and thus easy to transport on the construction site. The high-frequency technology not only saves weight, but also provides reliable and stable output. It has already been timetested and proven to be absolutely reliable in other industries and is now used by Wacker Neuson for frequency converters.
