Portable Backpack Vibrator

Portable Concrete Consolidation with Maximum Results

The portable gasoline vibrator with comfortable backpack features high impact, high speed concrete vibration. It is designed for light to medium duty concrete work and hard to reach concrete applications with limited electrical supply. Throttle control can be moved on either side of the operator to suit individual operating preferences. Swivel engine mount keeps the center of gravity close to the operator.

Highlights

- Perfect fit
- No power cords required
- High operator comfort
- Easy starting
- 10,000 vibrations per minute
