

## **Gasoline breaker**

The entry-level model for demolition

The BH55 petrol demolition hammer is the entry-level model among the demolition hammers. Lighter and smaller than the other demolition hammers in the Wacker Neuson series, it is designed for professional use and impresses with its compact size and easy handling.

## Highlights

- High single stroke impact energy at a low weight
- Hood spring mounting
- Powerful, sturdy percussion system
- Stable, well-balanced handle

## **Technical Data**

Depth without tool

Mechanical - Output Details		5
Number of blows		1.300.0 1/min

Trainbor of blows	1,000.0 1/111
Singel beat energie	55.0 J
Mechanical Details	
Length without tool	833.0 mm
Width without tool	492.0 mm

346.0 mm

Weight	23.80 kg
Tool holder	Hex 28x160
Engine	
Effective power	1.6 KW
Nominal Engine speed	4,250.0 1/min
Operating Fluids	
Lubrication intervall	20.0 h
