

RTD-SC4 with Compatec

Trench Roller

New Look; Proven Compaction

The RT trench roller with the SC4 remote control provides proven compaction performance with greater serviceability, durability, and a best-in-class operator experience. With greater access to hydraulic components and fewer parts, the RT trench roller offers high reliability and a lower cost of ownership. The intuitive remote control with an LCD display puts the data and controls in the operator's hands, eliminating the need to enter trenches, which enhances worksite safety.
