

ET18

Tracked conventional excavator

More options, even when things get tight.

The ET18 mini-excavator is the right compact excavator where space is limited and expectations are high. The adjustable telescopic travel gear allows for narrow passages and ensures stability, making it adaptable to any situation. The load-sensing hydraulics deliver sensitive control for attachments. Auto-idle, joystick control, and pressure release from the cab reduce setup times and increase operator safety. VDS keeps the machine level – ideal for slopes or curbs – ensuring optimal results in a comfortable, upright seated position, even when working on inclines. Flexible with simple crane loading via two lifting points on the cab or canopy.

Highlights

- Parallel operable control circuits AUX II &
- Hydraulic telescopic travel gear with dozer blade extension
- Enormously high performance thanks to single-pump hydraulic system
- Comfort that noticeably increases performance
- VDS Vertical Digging System
